As a Campus Rep, you will learn and improve upon many valuable skills to aid in your personal and professional development, including public speaking, time management, and confidence.

THE PROGRAM GIVES YOU THE OPPORTUNITY TO:

- ✓ **Network with students and professors**
- ✓ **Build your resume**

During the program, you will learn valuable information about the major certification exams that will be beneficial to the professional development of you and your peers.

As a Gleim Campus Rep, you are expected to be an ambassador for Gleim at your college by promoting our materials to your fellow classmates. However, to be clear, this is not a sales position. You are not expected to sell any Gleim materials.

ABOUT GLEIM

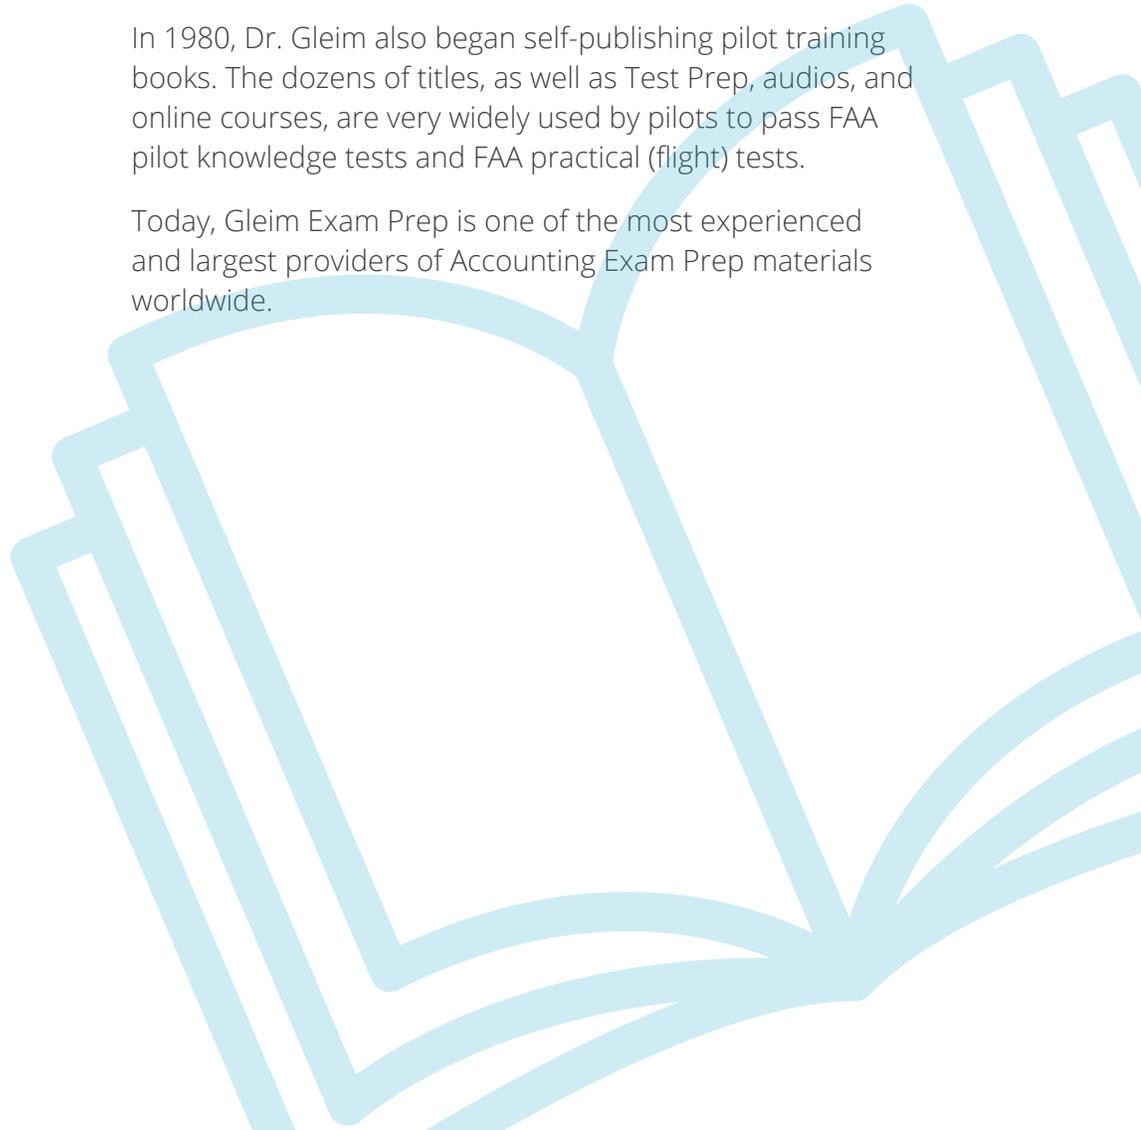

Gleim Exam Prep is one of the most experienced and largest providers of accounting exam prep materials worldwide.

Dr. Gleim and his wife wrote the first Gleim CPA Review book in 1974. In 1980, sales to accounting students and CPA candidates had grown to over 90% of the CPA Review market. In 1994, Dr. Gleim re-entered the CPA Review market with innovative new books, Test Prep software, audios, and online courses. Since 1980, he has self-published the most widely used CIA Review, CMA Review, EA Review, and Exam Questions and Explanations (EQE) accounting student study books. Students can use the EQE books to study throughout their college careers and then use the review systems to pass their professional certification exams. Gleim also provides hundreds of hours of Continuing Professional Education (CPE) credit for professional accountants.

In 1980, Dr. Gleim also began self-publishing pilot training books. The dozens of titles, as well as Test Prep, audios, and online courses, are very widely used by pilots to pass FAA pilot knowledge tests and FAA practical (flight) tests.

Today, Gleim Exam Prep is one of the most experienced and largest providers of Accounting Exam Prep materials worldwide.

PROGRAM OVERVIEW

REIMBURSEMENT

Students will receive a Gleim Premium Review System upon successful completion of the program. The system is powered by SmartAdapt™ technology, an innovative platform that continually zeros in on areas you should focus on. Gleim materials are written by professional educators and apply knowledge with the largest test bank of Multiple-Choice Questions, Focus Questions, and Task-Based Simulations on the market.

Students who are eager to start studying and sitting for their exams can receive some review materials as they progress through the program; however, students will not receive the full system until the program is complete.

POINT SYSTEM

You will earn your study materials through a point system. Each task you complete will be worth a specific number of points. **The goal is to accumulate 100 points to earn your Gleim Premium Review System.** We generally recommend completing 50 points each semester to make the program more manageable.

TASKS

Without interfering with your schoolwork, you will be expected to help promote our materials around your campus and online. All of the tasks fall into one of two categories: Mandatory or Elective.

The Mandatory tasks must be completed to fulfill the program. You will use Elective tasks to complete the remaining required points.
